Sir:

In response to the Official Action of May 8, 1997,

please amend the above-referenced pending patent application as follows:

In the claims:

Amend the claim 1 (TWICE AMENDED) as follows:

- 1 --1. (THRICE AMENDED) Power transmitting apparatus
2 comprising a fluid coupling including at least one
3 housing having an axis of rotation and connectable with
4 a rotary driving device, at least one impeller disposed
5 in and driven by said at least one housing when said
6 housing is driven by said driving device, and at least
7 one runner disposed in said at least one housing and
8 connectable with a rotary driven device; and damper means
